

WHO WE ARE

Europe's largest and longest-standing philanthropic collaborative working on issues of migration, belonging and democracy

WHAT WE DO

We fund and nurture alliances and partnerships, curate the migration ecosystem and cultivate a shared narrative for belonging and democratic resilience

THE UNDERLYING CHALLENGES

Insufficient trust within the ecosystem

Absence of a shared big picture

Othering

Undemocratic decision-making

OUR GROUNDING TRUTHS

Being (perceived as) a migrant in Europe means directly experiencing the often-inimical impact of policies, narratives and stereotypes

Migration is a complex human phenomenon that should not be seen in isolation, separate from other socio economic issues

Ensuring that migration is experienced in a humane manner involves engaging an entire ecosystem, transforming systems that perpetuate inequities and ensuring that migrants have a say

LEARNING FRAMEWORK

ACTION PILLARS

1 - BUILDING BRIDGES & STRENGTHENING ECOSYSTEMS

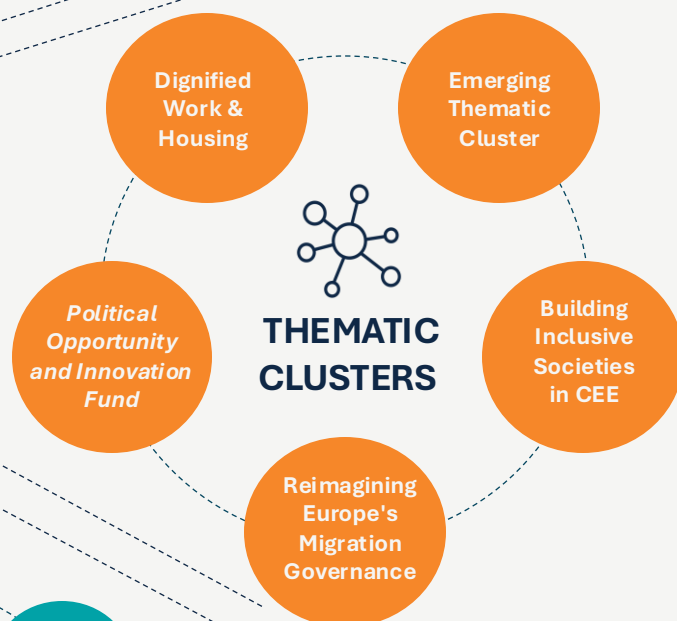

2 - CHANGING PERSPECTIVES & NARRATIVES

3 - CENTRING LIVED EXPERIENCE

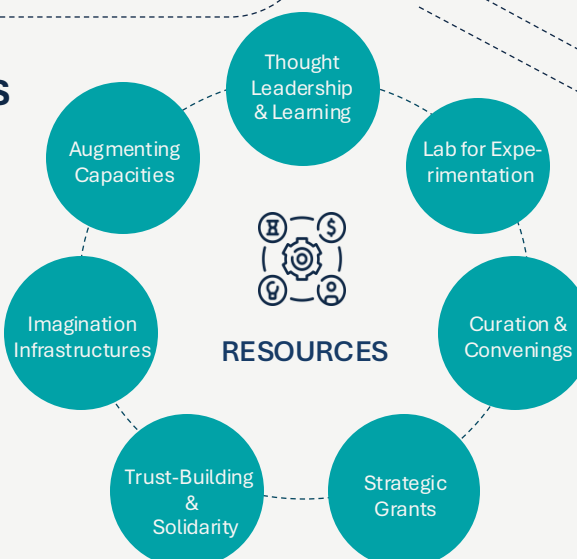

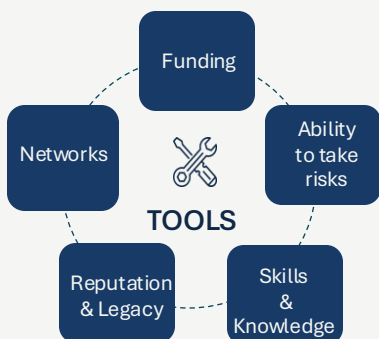

4 - REIMAGINING FUNDING

OUR RESOURCES & TOOLS

APPROACH

OUR VISION

Vision: A Europe where migration is accepted as part of its history, present and future, where its societies thrive, and where migrants belong assert their rights and have the agency to shape their future

CHANGING THE WORLD

We believe that when we transform the migration ecosystem by bringing together different actors, creating a shared big picture, building trust, reimagining funding and ensuring that migrants can lead, and shape the stories told about them, we will begin to see different relationships forming, conversations shifting, a shared big picture emerging and no longer will migration be seen in isolation from other socio-economic phenomena
