

Project Application

We find your project idea interesting, therefore we invite you to submit a detailed funding proposal.

We endeavor to bring about positive social change with our funding. This is why it is important to us to learn more about you and your project. The project proposal form is designed to help you structure your proposal, on the basis of which we will decide whether we can offer you support.

If we decide to support your project, we will draw up a grant contract which must be signed by you and by us. It forms the basis for our further cooperation. Once the grant contract is signed, you may begin your project.

If you have any questions, please do not hesitate to contact us.

2. Description

We would like to get an idea of what motivates you in your work and how we can support you. The questions and answers below will form the basis for a joint discussion about our potential collaboration. Please describe your project as specifically but concisely as possible based on your current knowledge. The guiding questions should help you, although you may not be able to answer all of them at this stage. This is not a problem and will not affect how we assess your application. We are aware that changes affecting your project can occur at any time, also in the future.

You can attach selected supplementary documents (e.g. existing descriptions/figures), which you can refer to.

1. What do you want to achieve in the long term?

The focus here is on describing your vision and the context. You can describe the challenges you wish to tackle or the future outcome you are aiming for. This (future) status might not be achievable by means of the current proposal/project alone. There are 2000 characters available.

2. What would you like to do? How do you propose to do it?

Please give a description of the proposed project and the stakeholders involved. You can also explain the target groups that will be affected by your project. There are 2000 characters available.

3. Who or what could prevent your project from succeeding? How could we address these challenges together?

Things don't always go as planned. What obstacles or risks do you see for your project and what factors can we influence together? There are 2000 characters available.

4. What might a cooperation with the Robert Bosch Stiftung look like?

Here we would like to know how we can best support you – apart from financially – and how we can learn together. There are 2000 characters available.

5. Is there anything else you would like to tell us?

There are 2000 characters available.

6. OPTIONAL: Project-specific question to be added by the topic area/project manager

There are 2000 characters available.
